

# ZOCKERSHIRTS 5.1 INTERCEPTOR

## Product

### Real 5.1 Multimedia Surround-Headset

The ZockerShirts 5.1 INTERCEPTOR is a multimedia headset that offers you the possibility to enjoy the sound of your games, films and applications in real 5.1 surround sound. This is possible through the three integrated speaker units in each headphone.

With the amplifier box the ZockerShirts 5.1 INTERCEPTOR does also offer the opportunity to connect an additional headsets at the same time.

The headset distinguish itself especially with the multilateral possibilities of usage. So you can connect the headset with a DVD-Player, your CD-Player or with a 5.1 Soundcard in your PC. Now there is nothing in the way to play hot battles with your friends at optimal Surround-Sound. The communication with programs like Teamspeak, Ventrilo or Skype is sure no problem with the integrated flexible and „Noise-Cancelling” microphone.

# **5.1 INTERCEPTOR**

If you don't need the microphone you can easily fix it on the headset, so it cannot disturb you while usage. In addition the ZockerShirts 5.1 INTERCEPTOR offers utmost wearing comfort. The ears are completely covered with soft ear pads. The moveable headphones adapt to any head shape. The extra long 3 m cable includes a compact mini control unit that allows an infinite and individual volume adjustment. (front vol./ rear vol./ center vol./ bass vol.)

The special transportation bag is made for safety storage of the ZockerShirts 5.1 INTERCEPTOR plus equipment.

# **5.1 INTERCEPTOR**
